CAREER OBJECTIVE

Computer Science and Engineering graduate (2026) from UBDTCE Davangere with hands-on experience across the full software development lifecycle, building, debugging, and maintaining web applications using Python, Django, React JS, JavaScript, HTML, CSS, REST APIs, and MySQL, along with working knowledge of data analysis tools like Pandas and Power BI. Comfortable working with both frontend and backend, and writing clean, maintainable code. A quick learner with strong programming fundamentals and a genuine interest in building real-world software, seeking a Full Stack Developer or Data Analyst role to contribute to production applications and turn data into actionable insights.

EDUCATION

B.E. in Computer Science and Engineering <i>UBDTCE, Davangere</i> CGPA: 7.63	2022 – 2026
Pre-University Certificate (PUC) – Science <i>Vishwa Chetana Vidyaniketana, Davangere</i> Percentage: 96.33%	2020 – 2022
SSLC (10th Standard) <i>Adarsha Vidyalaya, Hagaribommanahalli</i> Percentage: 90.88%	Passed 2020

INTERNSHIP EXPERIENCE

Python Full Stack Development Intern | QSpiders (Test Yantra Software Solutions Pvt. Ltd.)

Rajajinagar, Bengaluru, Karnataka | Jan 2026 – May 2026

- Developed and maintained full-stack web applications using Python, Django, HTML, CSS, and MySQL.
- Designed and integrated REST APIs to connect front-end interfaces with the Django backend.
- Wrote SQL queries, managed relational databases, and used Git for source-code management.

TECHNICAL SKILLS

Web Development

HTML, CSS, Bootstrap, Tailwind CSS, React JS

Database

MySQL, SQL

Python Libraries

NumPy, Pandas, Matplotlib, Seaborn

Soft Skills: Problem Solving, Teamwork, Communication, Analytical Thinking

Programming Languages

Python, SQL, JavaScript, OOPs Concepts

Backend Technologies

Django, REST API

Tools

Git, GitHub, Power BI

PROJECTS

EcoEats – Voice Assistant Food Ordering Web Application | Tech: Python, React JS, Django, MySQL, HTML, CSS

- Developed a full-stack food ordering web application with voice assistant for hands-free ordering.
- Built React JS frontend with HTML and CSS for a responsive and interactive user interface.
- Implemented Python and Django backend with MySQL database for order and menu management.
- Integrated voice recognition functionality allowing users to place food orders using voice commands.

Pneumonia Disease Detection using Deep Learning | Tech: Python, Deep Learning, CNN, Django, HTML, CSS

- Built a CNN model to detect pneumonia from chest X-ray images, with a full-stack Django interface for real-time image upload and diagnosis.
- Performed image preprocessing, data augmentation, debugging, and code optimization.
- Designed a responsive frontend using HTML and CSS for uploading X-ray images and viewing diagnosis results.
- Developed Django views and backend logic to handle image uploads, run model inference, and render results.

CERTIFICATIONS

Data Structures and Algorithms using Java | NPTEL (National Programme on Technology Enhanced Learning), IIT
